

NO FLANGE NO PAIN

TOP LIDDING WITHOUT FLANGE

No flange distortion during loading and sealing operation.
No flange distortion at retail shelf display.

- STANDARD BOARD PUNNET WITHOUT FLANGE READILY AVAILABLE
- INNOVATIVE G.MONDINI TECHNOLOGY SEALING ON INNER TRAY SURFACE*
- PLASTIC REDUCTION VS CURRENT FLOW WRAP OR RIGID LID SOLUTION

*Patent pending.

TOP LIDDING WITHOUT FLANGE

A NEW WAY TO SEAL

A solution for inner sidewall sealing ensuring robust G.Mondini seal quality.

PACK BENEFITS

No flange distortion guarantees increased tray and final pack robustness all along the value chain.

READY TO USE

Tray without flange readily available on the market.

PLASTIC REDUCTION

Less plastic vs current solutions.

CARBON FOOTPRINT REDUCTION

The trays without flange not only optimize storage space but also contribute to a more sustainable resource management and carbon emissions reduction.
